These classes are held at the Franklin Village Office Centre  
26111 West Fourteen Mile, Suite 200, Franklin, 48025

Please call or text 248-647-8378 for more information

## OUR NEW DIGITAL SAT COURSE!

These courses are for the digital SAT that begins in March, 2024.

What we do in a class:

### 1. SAT Diagnostic Test

We start with the **diagnostic test** to get you a starting score and assess your personal strengths and weaknesses. Since the digital SAT is adaptive, you'll find out if your score on the first module is high enough to get you the tougher second module.

### 2. Conventions of English

Each question pertaining to conventions of English will present two or three sentences with a blank. You choose the correct answer based on the grammar and, at times, the proper transition. We'll cover all the grammar they test - especially focusing on the more obscure rules. And, of course, we'll demonstrate strategies you can use to eliminate choices.

### 3. SAT Math

We'll show you the most common topics tested - everything from percents to parabolas. And we'll show you how to use a multiple choice math test to your advantage. We'll demonstrate how the SAT math test is different than a school math test by focusing on the types of questions you don't typically see in a high school classroom. This is the part of the new digital SAT most similar to the current SAT.

### 4. SAT Reading

The new digital SAT reading test has discarded long passages. The new format will present just a few sentences where you will choose, perhaps, the main idea of the passage or the function of an underlined sentence. There are various new question types, including some vocabulary-based questions, some poems, graphs and charts, fiction, and social studies and science. We'll delve into the various types and what sorts of questions you can expect as well as strategies for each type.

#### DIGITAL SAT 7-Sessions (\$495)
